

Claydata's Front Desk Package

- Efficiently manage your rosters, booking and billing
- Automate and simplify your administrative tasks
- Effectively plan your patient care - implement simple and easy treatment plans
- Integrate billing procedures and export billing data to your accounts software

Package description

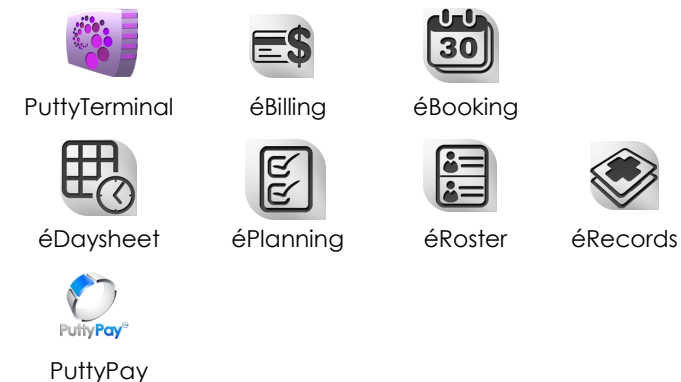

More than just a combination of the power of Claydata's Communications Package and the security and flexibility of the Document Management Package, the Front Desk Package takes on the task of streamlining administrative functions with a range of powerful applications.

Booking and billing have never been easier, and you'll never miss a beat with systematic timetabling, automated notifications, and intuitive record-keeping tools.

In addition, Claydata can offer you affordable off-the-shelf hardware bundles plus expert, on-site systems implementation to make the transition to a Claydata-powered admin solution even more stress-free.

Included in this package

Communications & Document Management Packages plus

We'd love to hear from you!
